P R E F A C E

The Rural Labour Enquiry which covers various facets of Rural Labour Households is being conducted since 1963-65. The enquiry was, however, integrated with the National Sample Survey (NSS) with effect from 1977-78 Round of NSS and since then it is being undertaken quinquennially on regular basis along with the General Employment & Unemployment and the Household Consumer Expenditure Surveys of the National Sample Survey Office (NSSO). The latest enquiry was conducted during 66th Round (2009-10) of the NSS. The main objective of the Enquiry is to provide up-to-date serial data on socio-economic characteristics of Rural Labour Households to the policy makers/stakeholders for formulating/reviewing policies and also to the researchers for undertaking research, which leads to welfare of rural labour households. With this objective, the data collected under each of the quinquennial surveys conducted by the NSSO is processed and analysed by the Labour Bureau in the form of five different Reports viz., (i) General Characteristics of Rural Labour Households; (ii) Consumption Expenditure; (iii) Indebtedness; (iv) Wages & Earnings; and (v) Employment & Unemployment of Rural Labour Households.

Wages and earnings are always related to demand, employment and productivity in the Labour market. Therefore, the data on wages and earnings is very essential to predict or evaluate the aggregated demand and employment in the country. The present report on Wages & Earnings of Rural Labour Households is fourth in the series of five reports pertaining to 66th NSS Round and presents analysis of data on the wages and earnings of rural labour households. It contains information on wages and earnings of workers of Rural Labour Households at state and all-India level which constitute critical inputs for formulation of policies & programme at grassroots level for rural labour households. I am confident that this report will be very useful to all the policy makers/ researchers.

I convey my sincere thanks to Field Operation Division (FOD), Survey Design & Research Division (SDRD) and Data Processing Division (DPD) of National Sample Survey Office (NSSO) for collecting and tabulating the data collected under quinquennial round. I place on record my appreciation for the officials of Rural Labour Enquiry Division of Labour Bureau, Shimla [**Annexure – III**] for their sincere efforts in analyzing/interpreting the data and preparing this report in a timely manner.

I look forward to the suggestions/comments of all users of this publication which would help us in adding value to this report further.

SHIMLA

Summary of the Report	ix – x
CHAPTER - I Scope and Method of Enquiry	
1. Introduction	1
2. Objectives	2
3. Scope	2
4. Geographical Coverage	2
5. Concepts and definitions	2
6. Period of Survey	7
7. Sampling Design and Sample Size	7
8. Estimation Procedure	11
9. Present Report	13
CHAPTER - II Earning Strength of the Labour Households	
1. Average Size and Average Earning Strength per Rural and Agricultural Labour Household	14
(i) Rural Labour Households	14
a. All Classes	14
b. Scheduled Castes	15
c. Scheduled Tribes	15
d. Other Backward Classes	16
(ii) Agricultural Labour Households	16

2	Wage Earners per Labour Household	16
	(i) Rural Labour Households	16
	a. All Classes	16
	b. Scheduled Castes	17
	c. Scheduled Tribes	17
	d. Other Backward Classes	18
	(ii) Agricultural Labour Households	18

CHAPTER - III Wages and Earnings

1.	Earnings of workers of Rural Labour Households vis-à-vis Agricultural Labour Households	19
2.	Average Earnings of Rural Labour Household workers in Agricultural Operations	20
3.	Average Earnings of Rural Labour Household workers in Non-agricultural Operations	23

CHAPTER - IV Earnings in Different Agricultural Operations

1.	Earnings of Male Workers of Rural Labour Households	27
2.	Earnings of Women Workers of Rural Labour Households	30
3.	Earnings of Child Workers of Rural Labour Households	32
4.	Earnings of Men, Women and Child Workers of Agricultural Labour Households	35
5.	Earnings of Workers of Rural Labour Households and Agricultural Labour Households in Agricultural Operations	35
6.	Level of Real Earnings	36
7.	Minimum Wages in Agriculture	37
8.	Wages in Agriculture vis-à-vis Wages in Factories, Coal Mines & Plantations	37

3.2 (b)(ii)	Average Daily Earnings of Men, Women and Children belonging to Scheduled Castes Agricultural Labour Households in Non-Agricultural Occupations	67
3.2 (b)(iii)	Average Daily Earnings of Men, Women and Children belonging to Scheduled Tribes Agricultural Labour Households in Non-Agricultural Occupations	68
3.2 (b)(iv)	Average Daily Earnings of Men, Women and Children belonging to Other Backward Classes Agricultural Labour Households in Non-Agricultural Occupations	69

4.1 (a)(i)M	Average Daily Earnings of Men belonging to All Rural Labour Households in different Agricultural Occupations	70 – 74
4.1 (a)(ii)M	Average Daily Earnings of Men belonging to Scheduled Castes Rural Labour Households in different Agricultural Occupations	75 – 79
4.1 (a)(iii)M	Average Daily Earnings of Men belonging to Scheduled Tribes Rural Labour Households in different Agricultural Occupations	80 – 84
4.1 (a)(iv)M	Average Daily Earnings of Men belonging to Other Backward Classes Rural Labour Households in different Agricultural Occupations	85 – 89
4.1 (a)(i)W	Average Daily Earnings of Women belonging to All Rural Labour Households in different Agricultural Occupations	90 – 94
4.1 (a)(ii)W	Average Daily Earnings of Women belonging to Scheduled Castes Rural Labour Households in different Agricultural Occupations	95 – 99
4.1 (a)(iii)W	Average Daily Earnings of Women belonging to Scheduled Tribes Rural Labour Households in different Agricultural Occupations	100 – 104
4.1 (a)(iv)W	Average Daily Earnings of Women belonging to Other Backward Classes Rural Labour Households in different Agricultural Occupations	105 – 109
4.1 (a)(i)C	Average Daily Earnings of Children belonging to All Rural Labour Households in different Agricultural Occupations	110 – 114
4.1 (a)(ii)C	Average Daily Earnings of Children belonging to Scheduled Castes Rural Labour Households in different Agricultural Occupations	115 – 119

4.1 (a)(iii)C	Average Daily Earnings of Children belonging to Scheduled Tribes Rural Labour Households in different Agricultural Occupations	120 – 124
4.1 (a)(iv)C	Average Daily Earnings of Children belonging to Other Backward Classes Rural Labour Households in different Agricultural Occupations	125 – 129
4.1 (b)(i)M	Average Daily Earnings of Men belonging to All Agricultural Labour Households in different agricultural Occupations	130 – 134
4.1 (b)(ii)M	Average Daily Earnings of Men belonging to Scheduled Castes Agricultural Labour Households in different Agricultural Occupations	135 – 139
4.1 (b)(iii)M	Average Daily Earnings of Men belonging to Scheduled Tribes Agricultural Labour Households in different Agricultural Occupations	140 – 144
4.1 (b)(iv)M	Average Daily Earnings of Men belonging to Other Backward Classes Agricultural Labour Households in different Agricultural Occupations	145 – 149
4.1 (b)(i)W	Average Daily Earnings of Women belonging to All Agricultural Labour Households in different Agricultural Occupations	150 – 154
4.1 (b)(ii)W	Average Daily Earnings of Women belonging to Scheduled Castes Agricultural Labour Households in different Agricultural Occupations	155 – 159
4.1 (b)(iii)W	Average Daily Earnings of Women belonging to Scheduled Tribes Agricultural Labour Households in different Agricultural Occupations	160 – 164
4.1 (b)(iv)W	Average Daily Earnings of Women belonging to Other Backward Classes Agricultural Labour Households in different Agricultural Occupations	165 – 169

4.1 (b)(i)C	Average Daily Earnings of Children belonging to All Rural Labour Households in different Agricultural Occupations	170 – 174
4.1 (b)(ii)C	Average Daily Earnings of Children belonging to Scheduled Castes Agricultural Labour Households in different Agricultural Occupations	175 – 179
4.1 (b)(iii)C	Average Daily Earnings of Children belonging to Scheduled Tribes Agricultural Labour Households in different Agricultural Occupations	180 – 184
4.1 (b)(iv)C	Average Daily Earnings of Children belonging to Other Backward Classes Agricultural Labour Households in different Agricultural Occupations	185 – 189
4.2	Average Daily Real Earnings of Men belonging to Agricultural Labour Households in Agricultural Operations	190
4.3	Average Daily Real Earnings of Men in Agricultural Operations vis-a-vis the Minimum wages in Agriculture fixed under the Minimum wages Act, 1948	191
4.4	Average Daily Earnings in Agricultural Occupations vis-a-vis those in other sectors of economy	192

RURAL LABOUR ENQUIRY REPORT ON WAGES AND EARNINGS OF RURAL LABOUR HOUSEHOLDS (2009-10)

The present report on 'Wages and Earnings of Rural Labour Households (2009-10)' is the fourth among all the five reports to be published by Labour Bureau. The key findings of the report are as under:

1.1 The 2009-10 survey revealed a decline in the average household size of all classes of Rural Labour Households to 4.36 persons from 4.56 persons over the previous survey in 2004-05 at All-India level. The earning strength of rural labour household of all classes for men & women both is declined to 1.78 in 2009-10 from 1.90 in 2004-05 by 9.18 percent. The decline was also observed among all classes of rural labour households. In case of Schedule Caste households it was decreased to 1.78 in 2009-10 from 1.95 in 2004-05. Similarly, Schedule Tribe and Other Backward Class households have also showed a decline in earning strength to 1.96 from 2.24 and 1.79 from 1.90 during the same period.

(Statements 2.1(a)(i) – 2.1(a)(iv).

1.2 Similarly, the trend of rural labourer household depicted in agricultural labour household which is main segment of rural labour households. The average agricultural labourer household size was decreased to 4.24 in 2009-10 from 4.50 in 2004-05. The earning strength of agricultural labourer household including men & women of all classes was also decreased to 1.85 from 2.03 during the same period. All the classes of agricultural labour households have witnessed the similar decline from 2004-05 to 2009-10 in earning strength, it was decreased from 2.02 to 1.85 for Schedule Caste households, 2.25 to 2.03 for Schedule Tribe households and 2.03 to 1.87 for Other Backward Households.

(Statements 2.1(b)(i) – 2.1(b)(iv).

1.3 At All-India level, the average number of wage earners per rural labour household during 2009-10 was 1.64 persons for all classes of Rural Labour Households decreased by 5.20 percent over 1.73 persons in 2004-05. In case of Scheduled Castes Households the wage earners decreased by 8.47 percent (i.e. 1.77 to 1.62), 7.77 percent in Scheduled Tribe Households (i.e. 1.93 to 1.78), 7.60 percent in respect of Other Backward Classes households (1.71 to 1.58) during same period.

(Statements 2.2(a)(i) – 2.2(a)(iv).

1.4 The average daily earnings of Men, and Women workers, whether in Rural Labour Households or Agricultural Labour Households, were higher in non-agricultural operations than in agricultural operations. However, in case of child workers, the earnings in non-agricultural operations were lower than in agricultural operations. The details may be seen in the table given below:-

Average Daily Earnings of Workers (Rs.) [2009-10]

	Agricultural Operations			Non-Agricultural Operations		
	Men	Women	Children	Men	Women	Children
Rural Labour Households	87.41	64.76	64.17	129.96	85.06	59.21
Agricultural Labour Households	87.16	64.32	64.95	98.58	78.63	38.58

1.5 In agricultural operations the average daily earnings of Men, Women and Child workers of Rural Labour Households registered an increase of 81.84 percent, 91.77 percent and 114.40 percent during 2009-10 over 2004-05 at All-India level. However, during this period in non-agricultural operations, this increase was 73.56 percent, 99.72 percent and 84.74 percent respectively.

(Statements 3.1(a)(i) – 3.2(a)(iv).

1.6 Among the main agricultural operations sowing was observed to be the most remunerative operation for men and child workers, ploughing for women workers for all classes of rural labour households with the daily average earnings of Rs.91.86, Rs.116.15 and Rs.70.94 respectively during the survey period 2009-10 at all-India level. The second highest average earning was reported at Rs.89.40 in transplanting operation in case of Men workers, at Rs.68.55 in harvesting operation in case of women workers and at Rs.91.00 in ploughing operation for child workers. The daily earnings were reported both in cash and kind. However, the major part of the daily earnings was in cash.

(Statements 4.1(a) (i) M, (i)W & (i)C

Note: It may be noted that for collection of information on occupation of the workers and the principal household occupation, 3-digit code of NCO-2004 was used in NSS 66th round as against NCO-1968 used in earlier rounds. Hence the results may not be strictly comparable as the concordance between 3-digit code of NCO-2004 and NCO-1968 was not possible.

CHAPTER - I

SCOPE AND METHOD OF ENQUIRY

1. Introduction

1.1 In India about two-third of the total labour force lives in the rural areas. Wage paid employment being the main source of their livelihood it has always been the main thrust of the Government of India to alleviate poverty, especially in the rural areas, by formulating and implementing various target result oriented poverty alleviation and development programmes. It was however felt that for formulating suitable and appropriate policies and action programmes, as well as for reviewing such policies/ programmes, the availability of sound data base is extremely important. Recognising the need for sound data base, the Government of India conducted first Agricultural Labour Enquiry (ALE) in the year 1950-51, followed by the second Enquiry in the year 1956-57. The scope of the subsequent enquiries was however widened and enlarged with intent to cover all rural labour households, instead of restricting these to agricultural labour households alone covered in the first two enquiries. Hence, the third enquiry in the series with the changed nomenclature, namely, the 'First Rural Labour Enquiry (RLE)' was conducted in the year 1963-65 followed by the second in 1974-75, the third in 1977-78, the fourth in 1983, the fifth in 1987-88, the sixth in 1993-94, the seventh in 1999-2000 and the eighth in 2004-05. The latest enquiry, which is ninth in the series, was conducted during 66th round (2009-10) of the NSS. With a view to narrow down the gap between the successive rounds of the Enquiries, the RLE was integrated with the General Employment & Unemployment Survey of the NSSO in the year 1977-78. All subsequent enquiries are now being conducted quinquennially to provide distinct and continuous data in the form of a time series on various parameters.

1.2 During the course of the Rural Labour Enquiries, data on various socio-economic facets viz, Employment & Unemployment; Consumption Expenditure; Wages & Earnings; and Indebtedness of rural and agricultural labourer households are collected. The job of collection of data for the earmarked survey was entrusted to the Field Operation Division (FOD) of the National Sample Survey Office (NSSO) through its network of zonal, regional and sub-regional offices located all over the Country. Under these enquiries, data are collected and analysed for rural labour as a whole. However, in order to have comparison with the previous rounds of enquiries and also to understand problems of this segment of labour force, which constitutes significant proportion of the rural labour, the analysis for agricultural labour are however, presented separately. The Labour Bureau is responsible for processing and dissemination of data, collected under RLE. The results of the latest Rural Labour Enquiry, the ninth in the series, for which the field work was undertaken by the NSSO (FOD) during its 66th Round Survey (July, 2009 to June, 2010), are being published in the form of the following five reports :-

- i) General Characteristics of Rural Labour Households;
- ii) Consumption Expenditure of Rural Labour Households;
- iii) Indebtedness among Rural Labour Households;
- iv) Wages and Earnings of Rural Labour Households; and
- v) Employment and Unemployment of Rural Labour Households.

The usefulness of the data brought up by the various Rural Labour Enquiries has been acknowledged by various Committees and Commissions constituted by the Government from time to time. The National Commission on Labour (1969) and the National Commission on Rural Labour (1991) have recommended that the periodic surveys undertaken by the Government to understand the rural situation should be continued and

intensified. The second National Commission on Labour (1999) has also recommended that the Rural Labour Enquiries should be conducted more frequently.

2. Objectives

2.1 *The main objectives of the enquiry are:*

- i) To provide up-to-date serial data on demographic structure, extent and status of employment & unemployment, wages and earnings, household consumption expenditure, indebtedness, etc. for building up of reliable estimates of important socio-economic characteristics of rural labour in general and agricultural labour in particular.
- ii) To provide data relating to consumption expenditure for derivation of weighting diagrams for updating the series of CPI numbers for agricultural and rural labourers.

3. Scope

The Rural Labour Enquiry relates to all rural labour households. However, provision has been made in the tabulation plan to get separate estimates for agricultural labour households and rural labour households.

4. Geographical Coverage

The survey covered the whole of the Indian Union except (i) interior villages of Nagaland situated beyond five kilometres of the bus route and (ii) villages in Andaman and Nicobar Islands which remained inaccessible throughout the year. However, all the sample first stage units of both rural and urban areas of Leh, Kargil and Poonch districts of Jammu & Kashmir became casualty and therefore these districts were outside the survey coverage.

5. Concepts and Definitions

The important concepts and definitions adopted for the survey are as follows:-

(i) *Household*

A group of persons who normally live together and take food from a common kitchen constitute a household. The adverb “normally” means that temporary visitors and guests (whose total period of stay in the household is expected to be less than 6 months) are excluded but temporary stay-aways (whose total period of absence from the household is expected to be less than 6 months) are included. Thus a child residing in a hostel for studies is excluded from the household of his/her parents, but a resident domestic servant or paying guest (but not just a tenant in the house) is included in the employer’s/host’s household. “Living together” is given more importance than “sharing food from a common kitchen” in drawing the boundaries of a household in case the two criteria are in conflict. However, in the special case of a person taking food with his family but sleeping elsewhere (say, in a shop or a different house) due to shortage of space, the household formed by such a person’s family members is taken to include the person also. Each inmate of a hotel, mess, boarding-lodging house, hostel, etc., is considered to be a single-member household except that a family living in a hotel (say) is considered one household only. The same principle is applicable for the residential staff of such establishments. The size of a household is the total number of persons in the household.

(ii) Rural Labour Household

A household is classified as a rural labour household if its major source of income during the last 365 days preceding the survey is more from wage paid manual labour (agricultural and/or non-agricultural) than either from paid non-manual employment or from self-employment. Rural labour households include agricultural labour households as well.

(iii) Agricultural Labour Household

Of the households which are initially classified as 'Rural Labour Households', those deriving 50 percent or more of their total income from wage paid manual labour in agricultural activities are treated as agricultural labour households.

(iv) Rural Labour Households with Cultivated Land

A household having cultivated land, either 'owned', 'land leased-in' or 'land neither owned nor leased-in', is treated as household with cultivated land. Land cultivated (including orchard and plantation) during the agricultural year 2008-2009, i.e., July 2008 to June 2009 was recorded. Cultivated land is taken to mean the net area sown during the last calendar year (i.e. July to June) preceding the year of enquiry and included orchards and current fallows. Area with field crops and area under orchards and plantations is counted only once in the same year/ season.

(v) Land Possessed

The area of land possessed includes land 'owned', 'leased in' and 'land neither owned nor leased in' (i.e. encroached) by the household but excluded land 'leased out'. In collecting information regarding land possessed, the actual position as obtained on the date of survey is considered. The 'area of land possessed' does not include the area of land owned, leased-in, etc. by the servants/paying guests who are considered as normal members of the household, as per the definition of household taken up for the survey.

(vi) Manual Work

A job essentially involving physical labour is considered manual work. However, jobs essentially involving physical labour but also requiring a certain level of general, professional, scientific or technical education are not termed as 'manual work'. On the other hand, jobs not involving much of physical labour and at the same time not requiring much educational (general, scientific, technical or otherwise) background are treated as 'manual work'. Thus, engineers, doctors, dentists, midwives, etc., are not considered manual workers even though their jobs involved some amount of physical labour. But, peons, chowkidars, watchman, etc. are considered manual workers even though their work might not involve much physical labour. A few examples of manual workers are cooks, waiters, building caretakers, sweepers, cleaners and related workers, launderers, dry cleaners and pressers, hair dressers, barbers, beauticians, watchmen, gate keepers, agricultural labourers, plantation labourers and related workers.

(vii) Wage Paid Manual Labour

A person who does manual work in return for wages in cash or kind or partly in cash and partly in kind (excluding exchange labour) is considered as a wage paid manual labour. Salaries are also considered as wages. A person who is self-employed in manual work is not treated as a wage paid manual labour.

(viii) Rural Labour

Manual labour working in agricultural and /or non-agricultural occupations in return for wages paid either in cash or in kind (excluding exchange labour) and living in rural areas, is taken as rural labour.

(ix) Agricultural Labour

A person is considered as agricultural labour, in case he/she follows one or more of the following agricultural occupations in the capacity of a wage paid manual labour, whether paid in cash or kind or both:

- a) farming,
- b) dairy farming,
- c) production of any horticultural commodity,
- d) raising of livestock, bees or poultry,
- e) any practice performed on a farm as incidental to or in conjunction with farm operations (including forestry and timbering) and the preparation for market and delivery to storage or to market or to carriage for transportation to market of farm produce.

Working in fisheries is excluded from agricultural labour. Further, 'carriage for transportation' refers only to the first stage of transport action i.e. from farm to the first place of disposal.

(x) Wage and Salary Earnings

Information on wage and salary earnings are collected separately for each of the wage/salaried work recorded for a person in a day. Here, earnings refer to the wage/salary income (and not total earnings taking into consideration of all other activities done) received/receivable for the wage/salaried work done during the reference week by a wage/salaried employee and casual labourer. The wage/ salary received or receivable may be in cash or kind or partly in cash and partly in kind. While recording the earnings following conventions are followed.

- a) The wages in kind are evaluated at the current retail price.
- b) Bonus and perquisites such as free accommodation, reimbursement of expenditure for medical treatment, free telephones, etc. evaluated at the cost of the employer or at retail prices and duly apportioned for the reference week are also included in earnings.
- c) Amount receivable as 'over-time' for the additional work done beyond normal working time is excluded.

It may be noted that in the survey, at most two activities are recorded for a person in a day. Therefore, it is possible that a person might have carried out two or more wage/salaried activities in a day, but either one activity or two activities at the most, depending upon the time spent on those activities, are recorded. In such cases, the wage/salary income only from recorded activity(ies) is collected and recorded separately, and not the total income of the person from all the activities done during the entire day.

(xi) Economic Activity

The entire spectrum of human activity falls into two categories – economic activities and non-economic activities. Any activity resulting in production of goods and services that add value to national product is considered as an economic activity for the employment and unemployment survey. Such activities include production of all goods and services for market (i.e. for pay or profit) including those of government services, and, the production of primary commodities for own consumption and own account production of fixed assets.

(xii) Usual Occupation

The usual occupation of a person is the economic activity which he may be pursuing during the major part of the 365 days preceding the date of the survey.

(xiii) Activity Status

It is the activity situation in which a person is found participating in economic and non-economic activities during the reference period. According to this, a person could be in one or a combination of the following three broad activity statuses during a reference period:

- a) working or being engaged in economic activity (work) as defined above,
- b) being not engaged in economic activity (work) but either making tangible efforts to seek 'work' or being available for 'work' if 'work' is available and
- c) being not engaged in any economic activity (work) and also not available for 'work'.

Broad activity statuses mentioned in (a) and (b) above are associated with 'being in labour force' and the last with 'not being in the labour force'. Within the labour force, broad activity status (a) and (b) are associated with 'employment' and 'unemployment', respectively.

(xiv) Workers (or Employed)

Persons who are engaged in any economic activity or who, despite their attachment to economic activity, abstain themselves from work for reason of illness, injury or other physical disability, bad weather, festivals, social or religious functions or other contingencies necessitating temporary absence from work, constitute workers. Unpaid helpers who assist in the operation of an economic activity in the household farm or non-farm activities are also considered as workers.

(xv) Seeking or Available for Work (or Unemployed)

Persons who, owing to lack of work, are not working but either seek work through employment exchanges, intermediaries, friends or relatives or by making applications to prospective employers or expressed their willingness or availability for work under the prevailing conditions of work and remuneration, are considered as those 'seeking or available for work' (or unemployed).

(xvi) Labour Force

Persons who are either 'working' (or employed) or 'seeking or available for work' (or unemployed) constitute the labour force. Persons who are neither 'working' nor 'seeking or available for work' for various reasons during the reference period are considered as 'not in labour force'. Persons under this category are students, those engaged in domestic duties, rentiers, pensioners, recipients of remittances, those living on alms, infirm or disabled

persons, too young persons, prostitutes, etc. and casual labourers not working due to sickness.

(xvii) Self-Employed

Persons who operate their own farm or non-farm enterprises or are engaged independently in a profession or trade on own-account or with one or a few partners are treated as self-employed in household enterprises. The essential feature of the self-employed is that they have autonomy (decide how, where and when to produce) and economic independence (in respect of choice of market, scale of operation and finance) for carrying out their operation. The remuneration of the self-employed consists of a non-separable combination of two parts: a reward for their labour and profit of their enterprise. The combined remuneration is wholly determined by the revenue from sales after netting out value of purchased inputs used in production. Self-employed persons are further categorised as follows:

- a) **Own-account workers:** those self-employed persons who operate their enterprises on their own account or with one or a few partners and who, during the reference period, by and large, run their enterprise without hiring any labour. They could, however, have had unpaid helpers to assist them in the activity of the enterprise;
- b) **Employers:** those self-employed persons who work on their own account or with one or a few partners and, who, by and large, ran their enterprise by hiring labour; and
- c) **Helpers in household enterprise:** those self-employed persons (mostly family members) who are engaged in their household enterprises, working full or part time and do not receive any regular salary or wages in return for the work performed. They do not run the household enterprise on their own but assist the related person living in the same household in running the household enterprise.

(xviii) Regular Salaried/Wage Employees

These are persons who work in others' farm or non-farm enterprises (both household and non-household) and, in return, receive salary or wages on a regular basis (i.e. not on the basis of daily or periodic renewal of work contract). This category includes not only persons getting time wage but also persons receiving piece wage or salary and paid apprentices, both full time and part-time.

(xix) Casual Labour

A person casually engaged in other's farm or non-farm enterprises (both household and non household) and getting in return wage according to the terms of the daily or periodic work contract is a 'casual wage labourer'. Depending on whether they are so employed in 'public works' sponsored by government agencies or local bodies or in other types of work, the casual workers are classified into two groups viz. casual labour in public works and casual workers in other types of work.

(xx) Children

Persons below 15 years of age are treated as children.

(xxi) Major States

This refers to the 17 States of India which had a population of 20 million or more according to the Census of 2001. The States are: Andhra Pradesh, Assam, Bihar, Chhattisgarh, Gujarat, Haryana, Jharkhand, Karnataka, Kerala, Madhya Pradesh, Maharashtra, Odisha, Punjab, Rajasthan, Tamil Nadu, Uttar Pradesh and West Bengal. Together, these States accounted for nearly 94.7% of India's population in 2001.

6. Period of the Survey

The enquiry was integrated with the 66th Round of the N.S.S. during the period 1st July, 2009 to 30th June, 2010, which was divided into 4 sub-rounds each of three months duration.

7. Sampling Design and Sample Size

7.1 Outline of the sampling design: A stratified multi-stage design was adopted for the 66th round survey. The first stage units (FSU) were the 2001 census villages (Panchayat wards in case of Kerala) in the rural sector and Urban Frame Survey (UFS) blocks in the urban sector. The ultimate stage units (USU) were households in both the sectors. Hamlet-groups/sub-blocks constituted the intermediate stage whenever these were formed in the sample FSUs.

7.2 Sampling Frame for First Stage Units: For the rural sector, the list of 2001 census villages (Panchayat wards in case of Kerala) constituted the sampling frame. For the urban sector, the list of latest available Urban Frame Survey (UFS) blocks constituted the sampling frame.

7.3 Stratification: Within each district of a State/ UT, two basic strata were formed as follows: i) rural stratum comprising of all rural areas of the district and (ii) urban stratum comprising of all the urban areas of the district. However, within the urban areas of a district, if there were one or more towns with population 10 lakhs or more as per population census 2001, each of them formed a separate basic stratum and the remaining urban areas of the district were considered as another basic stratum.

7.4 Sub-stratification: There was no sub-stratification in the urban sector. However, to net adequate number of child workers, for all rural strata, each stratum was divided into 2 sub-strata as follows:

sub-stratum 1: all villages with proportion of child workers (p) $> 2P$ (where P is the average proportion of child workers for the state/ UT as per Census 2001)

sub-stratum 2: remaining villages

7.5 Total sample size (FSUs): At the all-India level, a total number of 12784 FSUs were allocated for survey in the central sample. In addition, 24 State sample FSUs (16 for rural sector and 8 for urban sector) of Leh and Kargil districts of J & K were included in the central sample.

7.6 Allocation of total sample to States and UTs: The total number of sample FSUs was allocated to the States and UTs in proportion to population as per census 2001 subject to the availability of investigators and ensuring minimum sample allocation to each State/ UT.

7.7 Allocation of State/UT level sample to rural and urban sectors: The State/ UT level sample size was allocated between two sectors in proportion to population as per census

2001 with double weightage to urban sector subject to the restriction that urban sample size for bigger states like Maharashtra, Tamil Nadu, etc. did not exceed the rural sample size. A minimum of 16 FSUs (to the extent possible) was allocated to each state/ UT separately for rural and urban areas. Further the State level allocations for both rural and urban areas were adjusted marginally in a few cases to ensure that each stratum/ sub-stratum got a minimum allocation of 4 FSUs.

7.8 Allocation to strata: Within each sector of a State/ UT, the respective sample size was allocated to the different strata/ sub-strata in proportion to the population as per census 2001. Allocations at stratum/ sub-stratum level were adjusted to multiples of 4 with a minimum sample size of 4 and equal number of samples was allocated among the four sub rounds.

7.9 Selection of FSUs: For the rural sector, from each stratum/ sub-stratum, required number of sample villages were selected by probability proportional to size with replacement (PPSWR), size being the population of the village as per Census 2001. For urban sector, from each stratum FSUs were selected by using Simple Random Sampling Without Replacement (SRSWOR). Both rural and urban samples were drawn in the form of two independent sub-samples.

7.10 Selection of hamlet-groups/sub-blocks: Selected FSUs with approximate population 1200 or more were divided into a suitable number (say, D) of 'hamlet-groups' in the rural sector and 'sub-blocks' in the urban sector as stated below.

approximate present population of the sample FSU	no. of hgs/sbs to be formed (D)
less than 1200 (no hamlet-groups/sub-blocks)	1
1200 to 1799	3
1800 to 2399	4
2400 to 2999	5
3000 to 3599	6
.....and so on	

For rural areas of Himachal Pradesh, Sikkim, Uttarakhand (except four districts Dehradun (Plains), Nainital (Plains), Hardwar and Udham Singh Nagar), Poonch, Rajouri, Udhampur, Doda, Leh (Ladakh), Kargil districts of Jammu and Kashmir and Idukki district of Kerala, the number of hamlet-groups were formed as follows:

approximate present population of the sample village	no. of hgs to be formed
less than 600 (no hamlet-groups)	1
600 to 899	3
900 to 1199	4
1200 to 1499	5
.....and so on	

Hamlet-groups/ sub-blocks were formed in the sample FSU by more or less equalising populations. Two hamlet-groups (hg)/ sub-blocks (sb) were selected from a large FSU, wherever hamlet-groups/ sub-blocks were formed. This was done in the following manner – one hg/ sb with maximum percentage share of population was always selected and termed as hg/ sb 1; one more hg/ sb was selected from the remaining hg's/ sb's by simple random sampling (SRS) and termed as hg/ sb 2. Listing and selection of the households was done independently in the two selected hamlet-groups/ sub-blocks. The FSUs without hg/ sb formation were treated as sample hg/ sb number 1.

7.11 Sampling frame of households: All households listed in a village/UFS block where no hamlet-group/sub-block formation was done, or the households listed in the two selected hamlet-groups/sub-blocks of the village/UFS block where hamlet-group/sub-block formation was done, constituted the sampling frame of households.

7.12 Stratification of rural households: For employment and un-employment survey of NSS 66th round, all households listed in the selected FSU/hamlet group/sub-blocks were stratified into three second stage strata (SSS). The three second-stage-strata (SSS) formed in the rural areas were:

		no. of hhs to be surveyed	
SSS	composition of SSS	FSU without hg/sb formation	FSU with hg/sb formation (for each hg/sb)
SSS 1:	relatively affluent households	2	1
SSS 2:	of the remaining, households having principal earning from non- agricultural activity	4	2
SSS 3:	other households	2	1

Identification of affluent households was done by taking into account factors generally associated with affluent households such as: ownership of motor car/ jeep/ tractor/ combine-harvester/ truck/ bus/ etc.; consumer durables like DVD/ VCP/ refrigerator/ washing machine etc.; ownership of large business/ highly remunerative profession/ high salaried income etc.; ownership of spacious pucca house in good condition; ownership of 7 hectares or more of cultivable land; ownership of 3.5 hectares or more of irrigated land; ownership of a good number of cattle, buffaloes and camels (10 or more in number).

7.13 Selection of households: For employment-unemployment survey a total of 8 households were selected from each village/FSU. In both rural and urban areas, in case no hamlet-group/sub-block formation was done in the village/block, a number of 2, 4 and 2 households were selected from the second stage strata SSS1, SSS2 and SSS3, respectively. In case hamlet-groups/sub-blocks were formed in the village/block, a number of 1, 2 and 1 households were selected respectively from the second stage strata SSS1, SSS2 and SSS3 of each of the hamlet-groups/sub-blocks. The sample households from each of the second stage strata were selected by SRSWOR.

7.14 Sample Size: A total of 2,81,327 persons belonging to 59,129 households spread over 7,402 villages were surveyed at all-India level for canvassing Schedule 10 (employment-

unemployment survey). The number of sample villages, households and persons surveyed in different States/Union Territories and all-India for rural sector are set out in the Table-1.

Table-1
Number of Villages Allotted & Surveyed and Rural Households/ Persons Surveyed in Different States/UTs

Sl.No.	State/U.T.	No. of villages allotted	No. of villages surveyed	No. of Households surveyed	No. of persons
1	2.	3.	4.	5.	6.
1	Andhra Pradesh	492	491	3926	15127

*Including 16 rural samples in the state sample of J & K included in the Central Sample.

8. Estimation Procedure

8.1 Notations:

The following notations were used in the estimation procedure of the 66th Round:

s = subscript for sth stratum

t = subscript for tth sub-stratum

m = subscript for sub-sample (m = 1, 2)

i = subscript for ith FSU [village (panchayat ward) / block]

d = subscript for a hamlet-group/sub-block (d = 1, 2)

j = subscript for jth second stage stratum in an FSU/ hg/sb (j = 1, 2 or 3)

k = subscript for kth sample household under a particular second stage stratum within an FSU/ hg/sb

D = total number of hg's/sb's formed in the sample FSU

D* = 0 if D = 1

= (D – 1) for FSUs with D > 1

N = total number of FSUs in any urban sub-stratum

Z = total size of a rural stratum/sub-stratum (= sum of sizes for all the FSUs of a stratum/sub-stratum)

z = size of sample village used for selection.

n = number of sample FSUs surveyed including 'zero cases' but excluding casualty for a particular sub-sample and stratum/sub-stratum.

H = total number of households listed in a second-stage stratum of an FSU/hamlet-group or sub-block of sample FSU

h = number of households surveyed in a second-stage stratum of an FSU/hamlet-group or sub-block of sample FSU

x, y = observed value of characteristics x, y under estimation

$\hat{X}$, $\hat{Y}$ = estimate of population total X, Y for the characteristics x, y

Under the above symbols,

$y_{stmidjk}$ = observed value of the characteristic y for the kth household in the jth second stage stratum of the dth hg/sb (d = 1, 2) of the ith FSU belonging to the mth sub-sample for the tth sub-stratum of sth stratum.

However, for ease of understanding, a few symbols have been suppressed in following paragraphs where they are obvious.

8.2 Estimation of aggregates for a particular sub-sample (m) and stratum (s) in Rural sector:

8.2.1 Sub-sample estimate for a sub-stratum:

(i) For j^{th} second stage stratum of a sub-stratum:

$$\hat{Y}_j = \frac{Z}{n_j} \sum_{i=1}^{n_j} \frac{1}{z_i} \left[\frac{H_{i1j}}{h_{i1j}} \sum_{k=1}^{h_{i1j}} y_{i1jk} + D_i^* \times \frac{H_{i2j}}{h_{i2j}} \sum_{k=1}^{h_{i2j}} y_{i2jk} \right]$$

(ii) For all second-stage strata combined:

$$\hat{Y} = \sum_j \hat{Y}_j$$

8.2.2 Sub-sample estimate for a stratum:

Sub-sample estimate for a stratum will be obtained by adding sub-sample wise estimates of all the sub-strata ($\hat{Y}_{st}$) of the stratum.

$$\hat{Y}_s = \sum_t \hat{Y}_{st}$$

8.3 Overall Estimate for Aggregates:

Overall estimate for aggregates for a stratum ($\hat{Y}_s$) based on two sub-samples is obtained as:

$$\hat{Y}_s = \frac{1}{2} \sum_{m=1}^2 \hat{Y}_{sm}$$

8.4 Overall Estimate of Aggregates at State/UT/all-India level:

The overall estimate $\hat{Y}$ at the State/ UT/ all-India level is obtained by summing the stratum estimates $\hat{Y}_s$ over all strata belonging to the State/ UT/ all-India.

8.5 Estimates of Ratios:

Let $\hat{Y}$ and $\hat{X}$ be the overall estimates of the aggregates Y and X for two characteristics y and x respectively at the State/ UT/ all-India level.

Then the combined ratio estimate ($\hat{R}$) of the ratio ($R = \frac{Y}{X}$) will be obtained as

$$\hat{R} = \frac{\hat{Y}}{\hat{X}}.$$

9. Present Report

This is the fourth report in the series of five reports to be brought out on the basis of ninth RLE covering different aspects of rural labour households. It presents analysis of data on the wages and earnings of rural labour households. It contains the basic results on wages and earnings of workers of Rural Labour Households at state and all-India level. It gives (a) earning strength and the number of wage earners in the average size of Rural Labour Households; (b) data on wages and earnings of agricultural labour households workers in agricultural and non-agricultural operations; (c) earnings of workers (men, women and children) of agricultural labour households and rural labour households in different agricultural operations; (d) level of real earnings in agricultural operations during 2009-2010; and (e) comparison of wages of agricultural labour household workers with Minimum Wages fixed by the State Governments for agricultural operations as well as with wages paid to workers in organised sector (viz factories, mines & plantations). A comparative picture of the main findings of the various Rural Labour Enquiries conducted so far is given in Annexure–I.

CHAPTER - II

EARNING STRENGTH OF RURAL LABOUR HOUSEHOLDS

In this chapter, analysis of data on earning strength and number of wage earners of Rural and Agricultural Labour Households has been presented. The earning strength of a household has been taken as the total number of persons reporting 'agricultural', 'non-agricultural', and 'other occupation' as their usual occupation. A wage earner was taken to be one who reported 'agricultural labour' or 'non-agricultural labour' as his usual occupation in return for wages/salary either in cash or in kind (excluding exchange labour) or partly in cash and partly in kind. Wage earners includes 'other earners' and 'self-employed' also. The earning strength relates the economic status of the household. Higher the earning strength shows the better economic position of the household and against smaller earning strength relates to weaker economic position of the household.

1. AVERAGE SIZE AND AVERAGE EARNING STRENGTH PER RURAL AND AGRICULTURAL LABOUR HOUSEHOLD

(1) Rural Labour Households

(a) All Classes

Gender-wise average size of household vis-à-vis the earning strength of 'all classes' of Rural Labour Households are presented in Statement 2.1 (a) (i). The average size of Rural Labour Households at all-India level decreased to 4.36 persons in 2009-10 from 4.56 persons in 2004-05 i.e. by 4.39 percent. A corresponding decrease of 9.18 percent was also noticed in earning strength of the rural labour households where it has decreased to 1.78 persons in 2009-10 from 1.96 persons in 2004-05. The earning strength of 1.78 persons per household comprised of 1.24 male and 0.54 female members during 2009-10.

An analysis of average household size and earning strength of Rural Labour Households across the country revealed that the household with larger size did not necessarily have the good earning strength. This is reflected well in case of Uttar Pradesh state where with the household size is 5.04 persons and earning strength is 1.54 persons, Bihar with household size of 4.83 persons and earning strength of 1.42 persons, Punjab with household size of 4.69 persons and earning strength of 1.43 persons and Haryana with household size of 4.66 persons and earning strength of 1.57 persons during 2009-10. On the other hand the states with smaller household size had comparatively larger earning strength e.g. Andhra Pradesh and Tamil Nadu.

During 2009-10, the largest size of household was observed in the state of Uttar Pradesh (5.04) followed by Rajasthan (4.95), Bihar (4.83) and Gujarat (4.79). The smallest household size was observed in the state of Andhra Pradesh (3.62). The data on average size of households of major states revealed a decreasing trend in the average size of households was observed during 2009-10 over 2004-05 except in Haryana. An intense shrink was observed in Chhattisgarh state where it was decreased from 4.92 persons to 4.18 persons followed by West Bengal (4.58 to 4.01), Jharkhand (4.67 to 4.19) and Karnataka (4.48 to 4.17).

Average size of the household and average earning strength may not be directly correlated. It may be seen from the Statement 2.1(a)(i) that some states smaller average

size of household have more earning strength than those states which have larger average size of household. During 2009-10, among major states, the highest average earning strength per household was reported from Karnataka (2.16) followed by Maharashtra (2.14), Gujarat (2.11) and Madhya Pradesh (2.11) against in Bihar (1.42) followed by Punjab (1.43) and Jharkhand (1.44) reported the lowest average earning strength per household. The state of Chhattisgarh reported the highest proportion of female earning strength (43.75%) in total earning strength followed by Andhra Pradesh (43.43%) and Tamil Nadu (42.78%), on the other side, Punjab reported the lowest proportion of total earning strength (7.69%) followed by Bihar (9.86%) and West Bengal (13.79%).

The results in respect of average size of the household and earning strength of States/UTs showed a mixed trend. The highest fall in the average household size from 5.30 to 3.37 was noticed in case of Lakshadweep during 2009-10 over the previous survey. Many small states/UTs e.g. Arunachal Pradesh (3.98 to 5.06), Goa (4.40 to 4.87) Meghalaya (4.22 to 4.58), Mizoram (3.90 to 4.07), Nagaland (3.89 to 5.23), Sikkim (3.58 to 3.71), Chandigarh (1.90 to 3.22), D & N Haveli (3.88 to 4.49), Daman & Diu (4.62 to 4.69), Delhi (3.58 to 5.16) and Puducherry (3.65 to 3.74) reported significant increase in average household size over the previous survey.

(b) Scheduled Castes

The details of average household size and earning strength of Scheduled Castes Rural Labour Households are presented in Statement 2.1 (a) (ii). At all-India level, the average size of Scheduled Castes Rural Labour Households showed a decrease of 3.23 percent (from 4.64 to 4.49 persons) during 2009-10 over 2004-05 survey and earning strength decreased by 8.72 percent (from 1.95 to 1.78 persons).

Among major states, the largest size of Schedule Caste rural labour household was observed in the state of Assam (5.44) followed by Madhya Pradesh (5.15) and Rajasthan (5.04) during 2009-10 whereas Andhra Pradesh and Tamil Nadu reported the lowest household size at 3.71 persons. The average household size in all major states for Schedule Caste rural household have also reported decreasing trend during 2009-10 as compared to 2004-05 except Assam (5.01 to 5.44), Bihar (4.70 to 4.97), Haryana (4.50 to 4.89), Jharkhand (4.78 to 4.82), Kerala (4.19 to 4.43) and Madhya Pradesh (4.92 to 5.15). The earning strength also declined in many states.

During 2009-10, like Madhya Pradesh has the highest average earning strength of 2.35 persons per household followed by Karnataka (2.33), Andhra Pradesh and Maharashtra (2.05 each) and the lowest average earning strength was reported from the state of Jharkhand (1.35) followed by West Bengal (1.47) and Punjab (1.48).

(c) Scheduled Tribes

The average household size and earning strength of Scheduled Tribes Rural Labour Households are given in Statement 2.1(a) (iii). The average household size and earning strength at all-India level has registered a decrease of 3.55 percent (4.51 to 4.35) and 12.50 percent (2.24 to 1.96) respectively during 2009-10 over 2004-05. The decrease in earning strength (2.24 to 1.96) was mainly due to decrease in the number of female earners from 0.94 to 0.70.

The analysis of average household size and earning strength among major states showed a decreasing trend in many states during 2009-10 over 2004-05. The average household size of all states except Andhra Pradesh, Bihar, Jharkhand, Kerala, Punjab and Uttar Pradesh reported a decrease in 2009-10 as compared to 2004-05. The decline of 0.53

persons in household size was the highest in Tamil Nadu state from 4.05 to 3.52 persons. Punjab reported maximum household size of 5.94 persons followed by Kerala (4.98) and Bihar (4.95) in 2009-10. The lowest size of household was reported from Haryana (1.41). During 2009-10, the highest earning strength was observed in the state of Karnataka (2.46) and the lowest in Haryana and Punjab (1.00 each).

Among the other states/UTs, the results are varied in nature, as the maximum states/UTs showed decline in average size of household and earning strength over previous survey. However, few states showed a marginal increase in earning strength.

(d) Other Backward Classes

Statement 2.1(a)(iv) depicts the Household size and Earning Strength of 'Other Backward Classes' of the Rural Labour Households. At all-India level, the average size of Other Backward Classes Rural Labour Households showed a decrease of 4.89 percent from 4.50 during 2009-10 over 2004-05 survey results. The earning strength has declined to 4.28 by 8.69 percent mainly due to decline in female earning strength.

The largest size of household was observed in the state of Uttar Pradesh (5.09) followed by Rajasthan (5.01) and Gujarat (4.87) during 2009-10. The analysis of average household size revealed a decreasing trend in all the major states in 2009-10 over 2004-05 except Gujarat where it increased from (4.68 to 4.87) and Odisha (4.32 to 4.44). The decline of 0.99 persons in average household size was the highest in Chhattisgarh State. The lowest size of households was reported from Andhra Pradesh (3.55). The states which showed an increase in the number of earning strength were Gujarat (2.08 to 2.25), Maharashtra (2.27 to 2.29) and West Bengal (1.43 to 1.56). During 2009-10, among OBC RLHs, the highest average earning strength was from Maharashtra (2.29) and against the lowest in Chhattisgarh (0.73).

(ii) Agricultural Labour Households

The Statements 2.1(b) (i) to 2.1(b) (iv) show the average size of households, vis-à-vis, the earning strength of 'all Classes of Households; Scheduled Castes; Scheduled Tribes and Other Backward Classes Households during 2009-10 and 2004-05.

At All India level, the average size of the household as well as the earning strength of all classes of agricultural labour households at all India level decreased from 4.50 and 2.03 in 2004-05 to 4.24 and 1.85 in 2009-10 respectively. Decrease in the earning strength was mainly caused by decrease in the number of the female earners from 0.76 to 0.62. In case of Schedule Caste households, the average size of the household at all India level decreased from 4.57 to 4.33 and average earning strength reduced to 1.85 from 2.02 over the same period. The corresponding decrease of average Schedule Tribe household size and earning strength was from 4.41 and 2.25 to 4.34 and 2.03. The average household size and the earning strength of Other Backward Classes households at all-India level decreased from 4.45 and 2.03 in 2004-05 to 4.15 and 1.87 in 2009-10 respectively. In all the social classes, the decrease in the earning strength was mainly contributed by the decrease in the number of the female earners.

2. WAGE EARNERS PER LABOUR HOUSEHOLD

(i) Rural Labour Households

(a) All Classes

Information on Gender-wise average number of wage earners of All Classes of Rural Labour Households is given in statement 2.2(a)(i). The average number of wage earners of

all classes of Rural Labour Households was 1.64 (comprising 1.18 males and 0.46 females) in 2009-10 as against 1.73 (comprising 1.15 males and 0.58 females) in 2004-05. At all-India level the decrease in the number of wage earners per household was of the order of 5.20 percent. marginal rise registered by male wage earners (2.61%) and a significant fall in female wage earners (20.69%) per household observed in 2009-10 over 2004-05.

An analysis of wage earners of all classes of Rural Labour Households among the major states revealed that the average number of wage earners per household had gone down in all the states during 2009-10 except Haryana, Kerala and Rajasthan. In 7 major states viz; Andhra Pradesh (1.83), Chhattisgarh (1.79), Gujarat (1.90), Karnataka (2.06), Madhya Pradesh (1.87), Maharashtra (1.98) and Tamil Nadu (1.73), the average number of wage earners per household were more than the all-India average of 1.64 persons. The lowest number of wage earners per household was witnessed by Assam (1.18) followed by Bihar and Jharkhand (1.24 each) against the highest number of wage earners per household was found in Karnataka (2.06) followed by Maharashtra (1.98) and Gujarat (1.90) among all the major states. Gender wise composition of wage earners revealed a decline in the number of female wage earners in 2009-10 over 2004-05 for all the major states except Haryana and Rajasthan. The state of Chhattisgarh (43.58%) has the highest proportion of female wage earners during 2009-10 followed by Andhra Pradesh (43.17%) and Karnataka (41.75%) whereas the state of Punjab (7.63%) has the lowest proportion of female wage earners followed by Bihar (10.48%), West Bengal (11.02%) and Haryana (11.27%).

(b) Scheduled Castes

Gender-wise average number of wage earners of Scheduled Castes Rural Labour Households are given in Statement 2.2(a)(ii). At the all-India level, during 2009-10, the average number of wage earners worked out to 1.62 persons consisting of 1.16 males and 0.46 female as against 1.77 person, 1.20 male, and 0.57 female in 2004-05. In percentage terms the decrease in average number of wage earners during 2009-10 over 2004-05 was 8.47%.

Data on the major states revealed that the highest number of wage earners per SC RLH was in Karnataka (2.26) followed by Madhya Pradesh (2.10) and Maharashtra (1.97). All the major states except Haryana, Kerala, Madhya Pradesh and Tamil Nadu showed downward trend in the number of wage earners during 2009-10 as compared to 2004-05. The overall decrease in number of wage earners per SC RLH in these states was mainly due to decrease in the number of the female wage earners.

(c) Scheduled Tribes

Average number of the wage earners belonging to Scheduled Tribes Rural Labour Households are presented in Statement 2.2 (a) (iii). During 2009-10 the average number of wage earners of Scheduled Tribes Rural Labour Households at all-India level stood at 1.78 persons which was largest among all social groups viz; all classes of household (1.64); scheduled castes (1.62), and other backward classes households (1.58). The highest number of wage earners per ST RLH were in Karnataka (2.32) followed by Maharashtra (2.22) and Andhra Pradesh (2.05) whereas it was lowest in Haryana (0.59) followed by Punjab (1.00) and Bihar (1.15). Study of Gender wise composition of wage earners amongst the major states revealed that the state of Karnataka has the highest proportion of female wage earners per household (49.14%) followed by Chhattisgarh (46.33%) and Andhra Pradesh (45.37%).

(d) Other Backward Classes

Statement 2.2 (a) (iv) depicts the average number of wage-earners per household in other backward classes of Rural Labour Households by Gender. The average number of Other Backward Classes Rural Labour Households, at all India level, during 2009-10 was 1.58 persons constituting 1.09 males and 0.49 females as against 1.71 persons in 2004-05 comprising 1.11 males and 0.60 females. The number of wage earners per household has gone down by 7.60% in 2009-10 over 2004-05. The average number of wage earners per Other Backward Classes Rural Labour Household (1.58) in 2009-10 was lower than the average number of wage earners per household for all classes (1.64), scheduled castes (1.62) and scheduled tribes (1.78) during 2009-10.

An analysis of data for 2009-10 among major states revealed that the highest number of wage earners per OBC RLH was reported from Maharashtra (2.08) followed by Gujarat (2.02) and Karnataka (1.95). The lowest number of wage earners per household was found in Chhattisgarh (0.70) followed by West Bengal (1.13) and Jharkhand (1.19) among all the major states. Sex wise composition of wage earners for the two periods i.e. 2009-10 and 2004-05 revealed a decline in the number of female wage earners in respect of all the major states except Gujarat, Haryana and Rajasthan. The state of Chhattisgarh has the highest proportion of female wage earners (44.29%) followed by Andhra Pradesh (43.50%) and Karnataka (42.05%) whereas, the state of Punjab has the lowest proportion of female wage earners (7.14%) followed by Uttar Pradesh (9.92%) and Jharkhand (10.08%) during 2009-10.

(ii) Agricultural Labour Households

The data on the average number of wage earners per Agricultural Labour Household in respect of all the four groups of households viz; all-classes; scheduled castes; scheduled tribes and other backward classes households is presented in Statements 2.2 (b)(i) to 2.2 (b)(iv).

All-India level results in respect of all the social classes showed that during 2009-10 the highest average number of wage earners per household was found in scheduled tribes households (1.91) followed by scheduled castes (1.76), other backward classes households (1.74) and all-classes (1.73) which showed a declining trend over the previous survey (2004-05) for all the four social groups.

During 2009-10, the average number of wage earners per household in the social group 'all classes of agricultural labourer households' had declined in all the major states except Haryana, Kerala, Rajasthan and Tamil Nadu. The decline in the average number of wage earners per household was also noticed in the scheduled castes households in all the major states except Assam, Haryana, Kerala, Madhya Pradesh, Rajasthan and Tamil Nadu. A similar declining trend was also observed in the average number of the wage earners of Scheduled Tribes Households in all the major states except Andhra Pradesh, Assam, Bihar, Karnataka, Maharashtra, Odisha and Rajasthan. In case of Other Backward Classes households, the average number of wage earners per household was also declined in all the major states except Gujarat, Haryana, Maharashtra, Rajasthan and Uttar Pradesh. In all the social classes, the decrease in the average number of wage earners per household was mainly due to the decrease in the average number of female wage earners per household.

CHAPTER -III

WAGES AND EARNINGS

This chapter deals with average daily earnings of different categories of workers belonging to Rural and Agricultural Labour Households engaged in agricultural and non-agricultural occupations. Earnings refer to the wage/salary income (and not total earnings) receivable for the wage/salaried work done during the reference week by the wage/salaried employees and casual labourers. The wage/salary receivable may be in cash or in kind or partly in cash and partly in kind. The wages in kind are evaluated at the current retail price. Bonus and perquisites evaluated at retail prices and duly apportioned for the reference week are also included in earnings. Amount receivable as 'over time' for the additional work done beyond normal working time is also included. This is a departure from the earlier practice.

For the purpose of present Rural Labour Enquiry, normal working day of a casual labour constitutes eight hours. The details on earnings were collected for each of the activities in which usually occupied members of the household were engaged as wage paid labourers. The number of days to which earnings related were recorded in terms of defined intensities. The time intensity of an activity was measured in half day unit.

1. EARNINGS OF WORKERS OF RURAL LABOUR HOUSEHOLDS VIS-À-VIS AGRICULTURAL LABOUR HOUSEHOLDS

The average daily wage earnings of workers of Rural Labour Households and Agricultural Labour Households in agricultural and non-agricultural operations during 2009-10 are presented in the Table 3.1 below :

Table 3.1

Average Daily Earnings of Workers of Rural and Agricultural Labour Households in agricultural and non-agricultural operations

(In Rupees)

Category of Households	Agricultural Operations			Non-agricultural Operations		
	Men	Women	Children	Men	Women	Children
Rural Labour Households	87.41	64.76	64.17	129.96	85.06	59.21
Agricultural Labour Households	87.16	64.32	64.95	98.58	78.63	38.58

The above table reveals that the average daily earnings of the workers in Rural Labour Households were generally higher than Agricultural Labour Households particularly in non-agricultural operations. It was also observed that the earnings of workers, whether in Rural Labour Households or Agricultural Labour Households, were higher in non-agricultural operations than in agricultural operations. This was true in respect of all categories of

workers except in case of child workers where the earnings in non-agricultural operations were lower than agricultural operations. Earnings of workers of Rural labour Households in non-agricultural operations were higher than those in agricultural operations by 48.68% for men, 31.35% for women but lower in case of child workers by 7.73% and for men and women belonging to Agricultural Labour Households were 13.10% and 22.25% respectively. The highest earnings were observed in case of men workers followed by women and children in respect of all categories of workers except in Agricultural Labour Households engaged in agricultural operations where the average daily earnings of child workers were slightly higher than the women workers.

2.1 AVERAGE EARNINGS OF RURAL LABOUR HOUSEHOLD WORKERS IN AGRICULTURAL OPERATIONS

The average daily earnings of Rural Labour Household workers in agricultural operations during 2004-05 and 2009-10 are presented in Table 3.2 below:

Table 3.2

Average Daily Earnings of Rural Labour Household Workers in Agricultural Operations - All India

(In Rupees)

Category of Households	Men		Women		Children	
	2004-05	2009-10	2004-05	2009-10	2004-05	2009-10
1	2	3	4	5	6	7
All classes						
Total	48.07	87.41	33.77	64.76	29.93	64.17
Cash	42.45	83.21	29.55	62.17	26.46	58.10
Kind	5.62	4.20	4.22	2.59	3.47	6.07
Scheduled castes						
Total	49.15	88.93	34.87	66.03	27.73	60.26
Cash	42.72	83.99	29.81	63.24	23.60	53.84
Kind	6.43	4.94	5.06	2.79	4.13	6.42
Scheduled Tribes						
Total	41.79	73.38	31.67	59.07	29.37	53.98
Cash	36.39	69.09	26.89	55.17	24.08	52.67
Kind	5.40	4.29	4.78	3.90	5.29	1.31
Other Backward Classes						
Total	49.64	90.32	33.63	65.17	31.70	61.81
Cash	44.03	86.67	25.70	63.21	29.19	58.82
Kind	5.61	3.65	3.93	1.96	2.51	2.99

It may be seen in the above table that the average daily earnings of all categories of workers had registered significant increase in 2009-10 over 2004-05 at all-India level. The increase was highest for children (114.40%) followed by women (91.77%) and then men (81.84%) in case of all classes of Rural Labour Households. In case of Scheduled Castes

Households this increase was 117.29% for children; 89.36% for women and 80.94% for men. The corresponding increase in respect of Scheduled Tribes Households was 83.79%, 86.52% and 75.59% respectively. In the case of the Other Backward Classes Rural Labour Households the respective figures were 94.98% for children, 93.79% for women and 81.95% for men. During 2009-10 earnings of workers across different classes reveal that the earnings of the workers of Other Backward Classes Rural Labour Households were higher than all other category of workers for 'men' but in case of women, it was higher in Schedule Caste labour households. In case of 'children' it was highest in 'All Classes' of RLHs. The workers of Scheduled Tribes Rural Labour Households had the lowest average daily earnings among the four classes of households. The analysis of mode of payment of earnings revealed that the proportion of payments 'in kind' decreased in case of male and female workers in all four social classes of Rural Labour Households when compared to previous enquiry. However, the proportion of kind payment in case of child workers had increased in all social classes of workers except in Scheduled Tribe Households.

(a) All Classes

The average daily earnings of 'men', 'women' and child workers belonging to All classes of Rural Labour Households engaged in agricultural operations by states for 2009-10 and 2004-05 have been presented in Statement 3.1(a) (i). Among the major states the highest daily earnings of male workers during 2009-10 were observed in Kerala (Rs.190.46) followed by Punjab (Rs.129.09) and Haryana (Rs.123.23). The low level of earnings were observed in Chhattisgarh (Rs.64.43) followed by Madhya Pradesh (Rs.65.21) and Odisha (Rs.72.08). In Andhra Pradesh (Rs.104.04), Haryana (Rs.123.23), Kerala (Rs.190.46), Punjab (Rs.129.09), Rajasthan (Rs.120.51) and Tamil Nadu (Rs.117.51), the average daily earnings of male workers were more than the All India average (Rs.87.41). In case of female workers, the highest daily earnings of Rs.120.97 was also reported from the state of Kerala followed by Rajasthan (Rs.103.44) and Haryana (Rs.95.88). The lowest average daily earnings for female workers were reported in Odisha (Rs.54.66) followed by Maharashtra (Rs.54.94) and Madhya Pradesh (Rs.55.83). The states of Bihar (Rs.64.25), Chhattisgarh (Rs.61.12), Karnataka (Rs.57.82), Madhya Pradesh (Rs.55.83), Maharashtra (Rs.54.94), Odisha (Rs.54.66) and Uttar Pradesh (Rs.60.27) reported daily earnings below the all-India average of Rs.64.76. The state of Punjab reported the highest average daily earnings for child workers in agricultural operations (Rs.107.40) followed by Bihar (Rs.83.11) and Assam (Rs.80.00) whereas the state of Odisha experienced the lowest daily earnings of child workers at Rs.35.33 followed by Tamil Nadu (Rs.40.00) and Madhya Pradesh (Rs.44.37). In Andhra Pradesh (Rs.54.66), Karnataka (Rs.56.85), Madhya Pradesh (Rs.44.37), Maharashtra (Rs.48.84), Odisha (Rs.35.33) and Tamil Nadu (Rs.40.00), the average daily earnings of child workers were less than the all-India average of Rs.64.17. The percentage change of average daily earnings of male, female and child workers of Rural Labour Households in agricultural operations in 2009-10 over 2004-05 reflected that the earnings of all categories of workers had increased in all the states except in Arunachal Pradesh in case of men workers where some decline in the earnings were recorded. For male workers of Rural Labour Households, change in agricultural occupation the rise in percentage in average daily earnings was the highest in Andhra Pradesh (126.38%) followed by Chhattisgarh (103.89%) and Karnataka (96.73%) in the case of major states. The percentage increase in average daily earnings in case of female workers among the major states was also the high in the state of Andhra Pradesh (148.87%) followed by Chhattisgarh (138.01%) and Maharashtra (100.44%). Similarly, the child workers witnessed the highest

increase in average earnings in the state of Bihar (155.33%) followed by Punjab (142.60%) and West Bengal (112.40%).

Among major states, the earnings received by male, female and child workers in all the states were both in cash and in kind but maximum part of it was contributed by cash. The daily earnings of male workers of all classes revealed that 12.29% of the total earnings in Assam; 8.54% in Bihar; 8.70% in Gujarat; 10.63% in Punjab and 8.73% in Uttar Pradesh were paid in kind. The proportion of the payment in kind in the total earnings of woman workers was as high as 12.84% in Assam, 8.64% in Bihar, 10.70% in Rajasthan and 16.87% in Uttar Pradesh. In case child workers, it was 25.00% in Assam, 15.00% in Rajasthan, 24.95% in Uttar Pradesh and 13.96% in West Bengal.

(b) Scheduled Castes

The average daily earnings of the Scheduled Castes Rural Labour Households engaged in agricultural occupations have been presented in Statement 3.1(a)(ii). The average daily earnings of men, women and children belonging to the Scheduled Castes Rural Labour Households engaged in agricultural operations increased in almost all the States/Union Territories, in 2009-10 over 2004-05 except in Sikkim for male workers and in Tamil Nadu for child workers. Amongst major states of the country the earnings of male workers during 2009-10 were the highest in the State of Kerala (Rs.198.13) followed by Punjab (Rs.128.34) and Rajasthan (Rs.123.43). Apart from this in four other major states viz. Haryana (Rs.116.84), Tamil Nadu (Rs.114.96), Andhra Pradesh (Rs.100.59) and Assam (Rs.92.19) reported the average daily earnings of male workers higher than the all-India average of Rs.88.93. Similarly, in case of female workers, the state of Rajasthan reported the highest average daily earnings (Rs.108.86) and Maharashtra (Rs.55.64) reported the lowest. The average daily earnings of female workers in Bihar (Rs.61.84), Chhattisgarh (Rs.61.88), Jharkhand (Rs.64.14), Karnataka (Rs.57.89), Madhya Pradesh (Rs.56.52), Maharashtra (Rs.55.64), Odisha (Rs.58.99) and Uttar Pradesh (Rs.60.04) were less than the all-India average earnings of Rs.66.03 during 2009-10. In case of children, the highest daily earnings were observed in Punjab (Rs.107.40) followed by Gujarat (Rs.80.00) and the lowest in Tamil Nadu (Rs.40.00). As in the case of 'All Classes' of households; men, women and children of the Scheduled Castes Rural Labour Households engaged in agricultural occupations also received their daily earnings mainly in cash and partly in kind in almost all the major states. However, the proportion of earnings in kind was as high as 19.35% in Assam for male workers followed by Uttar Pradesh (12.73%). In the case of women workers during 2009-10, earnings in kind were more than twenty percent in the states of Assam (23.83%) and Uttar Pradesh (21.44%) and for children it was the highest in Uttar Pradesh (42.86%) followed by West Bengal (13.26%).

(c) Scheduled Tribes

Average daily earnings of male, female and child workers of the Scheduled Tribes Rural Labour Households engaged in agricultural operations for the years 2004-05 and 2009-10 are presented in Statement 3.1(a)(iii). The average daily earnings for men belong to Scheduled Tribes Rural Labour Households were the highest in Kerala (Rs.129.13) and the lowest in Odisha (Rs.60.28). The female workers got the highest average daily earnings in the state of Kerala (Rs.172.94) and the lowest in Maharashtra (Rs.51.18). In the case of child workers the highest daily earnings was reported from Karnataka (Rs.85.00) and the

lowest from Odisha (Rs.34.60). Average daily earnings of men workers in the states of Chhattisgarh (Rs.60.39), Gujarat (Rs.65.17), Madhya Pradesh (Rs.61.53) and Odisha (Rs.60.28) were below the all-India average of Rs.73.38. Likewise, daily earnings of women were less than the all-India average of Rs.59.07 in the states of Bihar (Rs.51.97), Gujarat (Rs.57.28), Karnataka (Rs.56.88), Madhya Pradesh (Rs.55.26), Maharashtra (51.18) and Odisha (Rs.52.51).

(d) Other Backward Classes

Data on average daily earnings of men, women and children belonging to Other Backward Classes of Rural Labour Households engaged in agricultural operations for the year 2004-05 and 2009-10 are presented in Statement 3.1(a) (iv). It has been observed that the major states, the average daily earnings of men were the highest in Kerala (Rs.188.40) and the lowest in Madhya Pradesh (Rs.64.76). In Assam (Rs.77.80), Bihar (Rs.79.48), Chhattisgarh (Rs.67.99), Gujarat (Rs.73.83), Karnataka (Rs.84.50), Madhya Pradesh (Rs.64.76), Maharashtra (Rs.77.66), Odisha (Rs.77.04), Uttar Pradesh (Rs.86.79) and West Bengal (Rs.79.56), the average daily earnings of men workers were found to be below of all-India average of Rs.90.32. The average daily earnings of women were the highest in Kerala (Rs.128.33) and the lowest in Odisha (Rs.49.44). In Chhattisgarh (Rs.63.98), Gujarat (Rs.61.77), Jharkhand (Rs.63.45), Karnataka (Rs.58.48), Madhya Pradesh (Rs.56.57), Maharashtra (Rs.51.16), Odisha (Rs.49.44), Uttar Pradesh (Rs.61.59) and West Bengal (Rs.50.00), the daily earnings of female workers were found to be below the all-India average of Rs.65.17. In the case of child workers, the highest earnings were reported from Gujarat (Rs.105.00) and the lowest in the state of Odisha (Rs.30.00). The states of Andhra Pradesh (Rs.34.44), Madhya Pradesh (Rs.44.09), Maharashtra (Rs.37.18) and Odisha (Rs.30.00) reported average daily earnings of child workers less than of all-India average of Rs.61.81. The state of Kerala had the highest daily earnings of men in all the four social categories of households viz. All classes, Scheduled Castes, Scheduled Tribes and Other Backward Classes of Rural Labour Households.

2.2 AVERAGE EARNING OF AGRICULTURAL LABOUR HOUSEHOLD WORKERS IN AGRICULTURAL OPERATIONS

The average daily earnings of Agricultural Labour Household workers engaged in agricultural operations in respect of Men, Women and Child workers belonging to all classes, scheduled castes, scheduled tribes and other backward classes are presented in Statements 3.1(b)(i) to 3.1(b)(iv). As stated earlier the agricultural Labour Households constituted majority of the rural labour households, the earnings were similar to the one observed in case of rural labour households. Hence detailed analysis has not been attempted for agricultural labour households.

3.1 AVERAGE EARNINGS OF RURAL LABOUR HOUSEHOLD WORKERS IN NON - AGRICULTURAL OPERATIONS

Table 3.3 presents gender-wise average daily earnings of workers of Rural Labour Households engaged in non-agricultural operations for different categories of households for the years 2004-05 and 2009-10 at all-India level.

Table 3.3
Average Daily Earnings of Rural Labour Household Workers
in Non-agricultural Operations - All India.

(In Rupees)

Category of households	Men		Women		Children	
	2004-05	2009-10	2004-05	2009-10	2004-05	2009-10
1	2	3	4	5	6	7
All classes						
Total	74.88	129.96	42.59	85.06	32.05	59.21

Kind	2.18	2.23	2.93	3.41	2.43	0.66

From Table 3.3, it may be seen that the average daily earnings among all classes and categories of Rural Labour Household workers in non-agricultural operations revealed a significant increase in 2009-10 over 2004-05. The male, female and child workers of all-classes of Households reported an increase of 73.56%, 99.72% and 84.74% in average daily earnings in non-agricultural operations in 2009-10 over 2004-05. A similar trend was observed in case of the Scheduled Castes workers with 66.59% increase for men, 96.19% for women and 55.24% for child workers. In case of Scheduled Tribes Rural Labour Households, the increase in daily earnings was 108.44% for men, 90.77% for women and 74.50% for child workers. For OBCs/RLHs engaged in non-agricultural operations, it was 71.41% for men, 100.12% for women and 151.41% for child workers. The average daily earnings of men during 2009-10 were higher than women and child workers in all the social classes of households. The average daily earnings for men (Rs.139.00) in Other Backward Classes (OBCs.) and for women (Rs.85.52) in Scheduled Caste Rural Labour Households were the highest among all the four categories of households during 2009-10. Also, the child workers of the OBCs RLHs have the highest (Rs.68.66) daily earnings among all the social classes of households. The proportion of the payment in kind in total earnings has

decreased in comparison to previous enquiry in respect of all the social categories of households.

(a) All Classes

State-wise data on the average daily earnings of men, women and children of All Classes of Rural Labour Households engaged in non-agricultural operations are presented in Statement 3.2(a)(i). The average daily earnings of all categories of workers i.e. men, women and children of Rural Labour Households in non-agricultural operations in 2009-10 have increased when compared to 2004-05 in all the States/Union Territories. The highest average daily earnings for men among the major states was reported from Kerala (Rs.251.83) followed by Tamil Nadu (Rs.162.33) and Haryana (Rs.148.50) whereas the lowest was in Assam (Rs.88.80) followed by Madhya Pradesh (Rs.90.35) and West Bengal (Rs.97.30) during 2009-10. Among major states, the average daily earnings of men less than the all-India average of Rs.129.96 observed in the states of Assam (Rs.88.80), Bihar (Rs.100.15), Chhattisgarh (Rs.105.64), Gujarat (Rs.113.35), Jharkhand (Rs.114.74), Madhya Pradesh (Rs.90.35), Odisha (Rs.103.80), Uttar Pradesh (Rs.101.28) and West Bengal (Rs.97.30). Men engaged in non-agricultural operations, however, had higher earnings than engaged in agricultural occupations in all the states except Goa and A & N Islands. Daily earnings were paid both in cash and in kind but major share of total earnings were paid in cash in all the states. In Arunachal Pradesh, Manipur, Meghalaya, Mizoram, Nagaland, Chandigarh, D & N Haveli, Daman & Diu, Delhi and Puducherry, men received their entire daily earnings in cash. Amongst major states, the highest daily earnings for women was also reported from Kerala (Rs.109.49) followed by Bihar (Rs.102.10) and Chhattisgarh (Rs.97.54) during 2009-10, whereas it was lowest in West Bengal (Rs.63.14) followed by Punjab (Rs.70.60) and Assam (Rs.73.40). In Haryana, Kerala, Punjab, Rajasthan, West Bengal, Meghalaya, Uttarakhand and A & N Islands, women workers engaged in non-agricultural operations, received less average daily earnings than those engaged in agricultural operations. The highest daily earnings for child workers were observed in the state of Bihar (Rs.125.00) and the lowest in Assam (Rs.41.35) among major states of the country during 2009-10. Average daily earnings of child workers in Assam, Tamil Nadu, Uttar Pradesh and West Bengal were less than the all-India average of Rs.59.21.

(b) Scheduled Castes

Statement 3.2(a)(ii) presents information on average daily earnings of men, women and children belonging to the Scheduled Castes Rural Labour Households engaged in non-agricultural occupations. Except Sikkim in case of men workers; Maharashtra and Sikkim in case of women workers, all the remaining states and union territories experienced an increase in the average daily earnings of men, women and child workers in 2009-10 over 2004-05. Amongst major states during 2009-10, the highest average daily earnings for men were reported from Kerala (Rs.243.19) and the lowest from West Bengal (Rs.83.31). In the states of Assam (Rs.88.46), Bihar (Rs.95.57), Chhattisgarh (Rs.103.40), Gujarat (Rs.99.74), Jharkhand (Rs.114.76), Madhya Pradesh (Rs.88.59), Maharashtra (Rs.118.40), Odisha (Rs.89.84), Uttar Pradesh (Rs.97.84) and West Bengal (Rs.83.31), average daily earnings were less than the all-India average of Rs.119.13. In case of major states, the women workers received the highest average daily earnings in Bihar (Rs.100.00) and the lowest in Maharashtra (Rs. 56.90) during 2009-10. Only 11 states reported daily earnings for child workers in non-agricultural operations during 2009-10. The highest average daily earnings of children were reported from Gujarat (Rs.125.00) and the lowest from West Bengal (Rs.35.08).

(c) Scheduled Tribes

The average daily earnings of men, women and children belonging to the Scheduled Tribes Rural Labour Households engaged in non-agricultural operations are presented in Statement 3.2(a) (iii). It reveals that among the major states during 2009-10, average daily earnings of men workers was the highest in Kerala (Rs.288.27) and the lowest in Madhya Pradesh (Rs.80.89). The major states where men received lower daily earnings than the all-India average of Rs.114.29 were Bihar (Rs.81.65), Gujarat (Rs.104.23), Madhya Pradesh (Rs.80.89), Maharashtra (Rs.93.43), Odisha (Rs.91.97), Punjab (Rs.106.81) and Uttar Pradesh (Rs.92.42). For Female workers the highest daily earnings received in Chhattisgarh (Rs.113.38) and the lowest in Karnataka (Rs.41.07). In 2009-10, average daily earnings for children were reported only from the states of Assam, Gujarat, Jharkhand, Rajasthan, Uttar Pradesh, West Bengal and Meghalaya. Among major states, the highest average daily earnings for Children were in Gujarat (Rs.98.01) and the lowest in Assam (Rs.35.72).

(d) Other Backward Classes

The information on average daily earnings of men, women and children belonging to Other Backward Classes of Rural Labour Households engaged in non-agricultural occupations is given in Statement 3.2 (a) (iv). It reveals that amongst the major states during 2009-10, average daily earnings of men was the highest in Kerala (Rs.255.34) followed by Tamil Nadu (Rs.167.56) and the lowest in West Bengal (Rs.84.20). Among the 17 major states, only 5 states viz. Haryana (Rs.142.70), Kerala (Rs.255.34), Punjab (Rs.145.30), Rajasthan (Rs.142.84) and Tamil Nadu (Rs.167.56) reported the average daily earnings of male workers higher than the all-India average of Rs.139.01. The average daily earnings of women were the highest in Kerala (Rs.116.8) and the lowest in Punjab (Rs.41.36) among major states. The daily earnings for child workers were reported by only 5 states during 2009-10. The average daily earnings of the child workers were reported to be the highest in Haryana (Rs.125.00) followed by Jharkhand (Rs.90.00) and the lowest in Andhra Pradesh (Rs.45.42).

3.2 AVERAGE EARNINGS OF AGRICULTURAL LABOUR HOUSEHOLD WORKERS IN NON - AGRICULTURAL OPERATIONS

The average daily earnings of Agricultural Labour Household workers in non-agricultural operations in respect of Men, Women and Child workers belonging to all classes, scheduled castes, scheduled tribes and other backward classes are presented in Statements 3.2(b) (i) to 3.2(b) (iv). As Agricultural Labour Households constituted majority of the Rural Labour Households, the earnings were more or less similar to the one observed in case of rural labour households. Hence detailed analysis has not been done separately for agricultural labour households.

CHAPTER – IV

EARNINGS IN DIFFERENT AGRICULTURAL OPERATIONS

This chapter presents information on the average daily earnings of rural workers, i.e., men, women and children, belonging to all categories of Rural Labour Households viz; All Classes; Scheduled Castes; Scheduled Tribes and Other Backward Classes engaged in different agricultural operations. The daily earnings of the rural workers are influenced by several forces e.g. the local traditions/customs; prosperity of the region/state; awareness of beneficial provisions contained in the Minimum Wages Act, 1948; skill in particular agricultural operation; mobility of labour and other factors.

1. EARNINGS OF MALE WORKERS OF RURAL LABOUR HOUSEHOLDS

The average daily earnings of male workers belonging to all the four social categories (at all India level) of Rural Labour Households engaged in different agricultural operations during 2004-05 and 2009-10, are depicted in Table 4.1.

Table 4.1

Average daily earnings for men of Rural Labour Households in different Selected Agricultural Operations – All India

(In Rupees)

11.Other (Agricultural operations)	38.68	-	-	-	51.02	-	-	-

It may be seen from the above that the average daily earnings of men belonging to All the four categories of households; All Classes, Scheduled Castes, Scheduled Tribes and the Other Backward Classes Households at all-India level have increased in all the selected agricultural occupations during 2009-10 over the year 2004-05. Amongst the six main agricultural operations, viz., ploughing, sowing, transplanting, weeding, harvesting, and cultivation; sowing was observed to be the most remunerative operation for men belonging to the All Classes Households (with Rs.91.86 average daily earnings) and Other Backward Classes of Households (Rs.99.77) whereas harvesting was on the top in case of Scheduled Castes Households (Rs.90.68) and it was transplanting occupation in Scheduled Tribes Households (Rs.96.99) during 2009-10. The men engaged in weeding reported the lowest daily earnings of Rs.78.76 for All Classes Households, Rs.81.24 for the Scheduled Castes Households and Rs.77.69 for Other Backward Classes Households among the six main occupations. For the Scheduled Tribe Households, the average daily earnings were lowest in sowing operation (Rs.65.50).

Among the other agricultural operations, forestry was observed to be the highest paid operation for All Classes Households, plantation for Scheduled Castes Households whereas fisheries was the most remunerative operation for Scheduled Tribes Households and Other Backward Classes Households. The average daily earnings for men in Animal Husbandry were the lowest in all the four categories of Rural Labour Households. It was also noticed that average daily earnings of male workers belonging to Scheduled Castes Households engaged in weeding, harvesting, cultivation, plantation and animal husbandry were highest than all other classes. In ploughing, sowing and fisheries operations, OBC male workers had highest average daily earnings. In forestry and transplanting, it was highest for All Classes households and Scheduled Tribes households respectively.

(a) All Classes

The average daily earnings of men belonging to all Rural Labour Households in various agricultural operations are presented in Statement 4.1(a)(i) M for all States/Union Territories of the country for the years 2004-05 and 2009-10. Though the increase in daily earnings has been observed in almost all the agricultural operations in all the states/union territories but it varied from state to state and operation to operation. Among the major states during 2009-10, the highest average daily earnings was observed in Kerala State for different agricultural occupation for Ploughing (Rs.220.86), Transplanting (Rs.159.74), Weeding (Rs.146.08), Harvesting (Rs.190.81), Cultivation (Rs.184.13), Plantation (Rs.187.42) and Animal Husbandry (Rs.180.95); Rajasthan for Sowing (Rs.143.13); Odisha for Forestry (Rs.428.57) and Tamil Nadu for Fisheries (Rs.264.61). The low level of average daily earnings observed in Madhya Pradesh for Ploughing (Rs.62.62), Transplanting (Rs.35.00), Weeding (Rs.62.79) and Cultivation (Rs.63.53); Chhattisgarh for Sowing (Rs.35.79) and Harvesting (Rs.54.51); Punjab for Forestry (Rs.77.27); Assam for Plantation (Rs.68.91); Rajasthan for Animal Husbandry (Rs.41.43) and West Bengal for Fisheries (Rs.61.41). The earnings were paid both in cash and in kind in most of the states but major portion of it were paid in cash.

Daily earnings of men in minor states/union territories also showed an increasing trend over the previous survey. Since the percentage of wage earners covered under these state/union territories is very less, therefore, an elaborate analysis has not been attempted here.

(b) Scheduled Castes

State-wise details of average daily earnings of men, belonging to the Scheduled Castes Rural Labour Households in various agricultural operations are given in Statement 4.1(a) (ii) M. Amongst all the major states, the highest and lowest average daily earnings in different agricultural operations during 2009-10 were as follows; Kerala (Rs.297.94) and Chhattisgarh (Rs.60.26) in Ploughing, Rajasthan (Rs.134.49) and Uttar Pradesh (Rs.52.68) in Sowing, Punjab (Rs.121.33) and Gujarat (Rs.55.16) in Transplanting, Tamil Nadu (Rs.123.63) and Gujarat (Rs.53.15) in Weeding, Kerala (Rs.196.38) and Chhattisgarh (Rs.43.03) in Harvesting, Kerala (Rs.211.15) and Madhya Pradesh (Rs.64.00) in Cultivation, Kerala (Rs.296.00) and Punjab (Rs.61.70) in Forestry, Kerala (Rs.187.58) and Assam (Rs.78.57) in Plantation, Haryana (Rs.150.00) and Kerala (Rs.25.00) in Animal Husbandry, Kerala (Rs.250.00) and West Bengal (Rs.61.39) in Fisheries.

(c) Scheduled Tribes

State-wise data on average daily earnings for men belonging to the Scheduled Tribes Rural Labour Households in respect of different selected agricultural operation are given in Statement 4.1(a) (iii) M. During 2009-10, as compared to the previous survey 2004-05, there has been an increase in the daily earnings of men engaged in all the selected agricultural operations in most of the States and Union Territories. Among major states during 2009-10, in ploughing operation Rajasthan reported the highest daily earnings of Rs.133.98 and the lowest (Rs.52.11) reported from Tamil Nadu. Sowing operation fetched the highest earnings of Rs.200.00 in Rajasthan and the lowest (Rs.17.14) in Jharkhand. In transplanting, the earnings ranged from Rs.35.00 in Madhya Pradesh to Rs.133.96 in West Bengal. In weeding, it was lowest in Odisha (Rs.46.60) and highest in Kerala (Rs.135.00). In harvesting the earnings ranged from Rs.48.72 in Chhattisgarh to Rs.150.00 in Tamil Nadu and in cultivation from Rs.60.00 (Chhattisgarh) to Rs.132.68 (Uttar Pradesh). The highest earning of Rs.120.00 for fisheries occupation was reported by Kerala state and lowest of Rs.41.45 for animal husbandry occupation reported in Rajasthan.

(d) Other Backward Classes

The data on average daily earnings of male workers of Other Backward Classes of Rural Labour Households in various agricultural operations is presented in Statement 4.1 (a)(iv)-M. The operation-wise details in respect of major states during 2009-10 revealed that the state of Kerala reported the highest earnings in ploughing (Rs.184.02), transplanting (Rs.217.08), weeding (Rs.148.29), harvesting (Rs.176.72), cultivation (Rs.193.08), forestry (Rs.439.92), plantation (Rs.184.95) and animal husbandry (Rs.591.00). In sowing and fisheries, the highest earnings were reported from Tamil Nadu at Rs.149.48 and Rs.264.60 respectively whereas the lowest earnings were reported from Chhattisgarh in ploughing (Rs.57.27), sowing (Rs.40.00) and harvesting (Rs.61.82); Gujarat in transplanting (Rs.50.74); Madhya Pradesh in weeding (Rs.58.15), cultivation (Rs.64.96) and animal husbandry (Rs.21.43); Bihar in forestry (Rs.80.88); Assam in plantation (Rs.68.45) and Maharashtra in fisheries (Rs.100.00).

2. EARNINGS OF WOMEN WORKERS OF RURAL LABOUR HOUSEHOLDS

The average daily earnings of female workers of various Rural Labour Households in different agricultural operations at all-India level is presented in Table 4.2

11.Other (Agricultural operations)	30.24	-	-	-	33.74	-	-	-

It may be seen from Table 4.2 that during 2009-10 as compared to 2004-05, the average daily earnings of women workers at all-India level has increased in all the selected agricultural operations except for forestry in Scheduled Castes Households and fisheries in Other Backward Classes Households. In main agricultural operations, women workers engaged in ploughing operation earned the highest daily earnings of Rs.70.94 for All Classes Households, Rs.102.85 for the Scheduled Tribes and Rs.81.14 for Other Backward Classes Households during 2009-10. However, the women of the Scheduled Castes Households received the highest earnings of Rs.72.66 in harvesting occupation. Among other agricultural occupations, forestry was considered to be the most gainful operation for women in All Classes and Scheduled Tribes Households whereas plantation for Scheduled Castes and Other Backward Classes Households during 2009-10. Animal husbandry was found to be the lowest paid operation for All Classes, Scheduled Castes & Other Backward Classes Households whereas it was transplanting in case of Scheduled Tribes Households women workers during 2009-10.

(a) All Classes

State-wise average daily earnings of women workers of Rural Labour Households engaged in various agricultural operations during 2009-10 have been presented in Statement 4.1(a)(i) W. As in case of men, increasing trend in daily earnings of women workers have also been noticed during 2009-10 over 2004-05 except some occupations in some states. Among the major states during 2009-10, the highest daily earnings in ploughing operation were reported from Haryana (Rs.150.00) and the lowest from Gujarat (Rs.20.00). In sowing, it ranged between Rs.31.73 (Chhattisgarh) and Rs.100.00 (Assam). In transplanting, Kerala reported the highest average daily earnings of Rs.199.83 as against the lowest of Rs.48.98 from Gujarat. For weeding operations the highest earnings was reported from Kerala (Rs.133.02) and the lowest from Maharashtra (Rs.50.05). Harvesting operation secured the highest daily earnings in Rajasthan (Rs.135.28) and the lowest in Karnataka (Rs.57.80). Earnings in cultivation operation were the highest in Kerala (Rs.131.28) and the lowest in Madhya Pradesh (Rs.53.96). In plantation and animal

husbandry, it was highest in Uttar Pradesh (Rs.121.43) and Chhattisgarh (Rs.87.35) respectively and the lowest in Odisha (Rs.44.29) and Madhya Pradesh & Tamil Nadu (Rs.28.57 each) respectively. All other agricultural operations did not appear to be very popular among the women workers.

(b) Scheduled Castes

The daily earnings details of women workers belonging to the Scheduled Castes Rural Labour Households are given in Statement 4.1(a)-(ii) W. Among major states during 2009-10, in ploughing operation, the highest earnings of Rs.93.66 were reported from Andhra Pradesh and the lowest from Tamil Nadu (Rs.40.00). Earnings in sowing operation were between Rs.25.19 (Uttar Pradesh) and Rs.103.12 (Gujarat). Earnings in transplanting operation were highest in Gujarat (Rs.95.00) and lowest in Chhattisgarh (Rs.52.52). In weeding operation, Kerala reported the highest earnings of Rs.138.17 and the lowest was reported from Bihar (Rs.50.28). In harvesting operation the daily earnings were between Rs.50.00 (Jharkhand) and Rs.135.82 (Rajasthan). In cultivation, it ranged from Rs.48.82 in Madhya Pradesh to Rs.131.37 in Kerala. Other agricultural operations did not appear much popular among the women workers. Earnings were paid both in cash and kind with major share of cash in all the agricultural operations in majority of the States.

(c) Scheduled Tribes

Daily earnings of Scheduled Tribes women workers belonging to rural labour households engaged in various agricultural operations have been shown in Statement 4.1(a)(iii)W. During 2009-10 in main agricultural operations, the highest average daily earnings for women among major states were reported from Chhattisgarh in ploughing (Rs.214.29), Assam in sowing (Rs.100.00), Andhra Pradesh in transplanting (Rs.80.86), Kerala in weeding (Rs.135.00), Jharkhand in harvesting (Rs.100.00) and Rajasthan in cultivation (Rs.92.25). On the other hand, it was reported the lowest from Odisha in ploughing (Rs.60.00), Chhattisgarh in sowing (Rs.22.86) and transplanting (Rs.39.03), Tamil Nadu in weeding (Rs.40.00) and cultivation (Rs.47.13) and Gujarat in harvesting (Rs.49.34).

(d) Other Backward Classes

The average daily earnings of women belonging to Other Backward Classes of Rural Labour Households are presented in Statement 4.1(a)(iv)W. Among major states during 2009-10, average daily earnings of Other Backward Classes women workers in agricultural operations were reported from Rs.20.00 (Gujarat) to Rs.150.00 (Haryana) in ploughing, Rs.40.00 (Chhattisgarh) to Rs.110.00 (Gujarat) in sowing, Rs.35.00 (Madhya Pradesh) to Rs.199.00 (Kerala) in transplanting, Rs.40.00 (Odisha) to Rs.132.14 (Rajasthan) in weeding, Rs.48.11 (Odisha) to Rs.131.83 (Rajasthan) in harvesting and Rs.44.13 (Uttar Pradesh) to Rs.131.10 (Kerala) in cultivation.

3. EARNINGS OF CHILD WORKERS OF RURAL LABOUR HOUSEHOLDS

The average daily earnings of child workers belonging to the Rural Labour Households in different agricultural operations at all-India level are given in Table 4.3.

Table 4.3

The average daily earnings of child workers at all-India level have increased in all the specified agricultural operations in all the four social categories of households during 2009-10 over 2004-05 except in transplanting in Scheduled Tribes Households. Among main agricultural operations during 2009-10, child workers engaged in sowing operation earned the highest average daily earnings of Rs.116.15 for All Classes Households. Child workers belong to Scheduled Castes and Scheduled Tribes Households received the highest earnings of Rs.68.54 and Rs.83.41 respectively in weeding operation. However, OBC child workers received the highest earnings of Rs.98.10 in ploughing. The lowest average daily earnings of Rs.28.72 were received by the child workers of the ST households engaged in animal husbandry operation among all the agricultural operations during 2009-10.

(a) All Classes

The average daily earnings of child workers belonging to Rural Labour Households in various agricultural operations is presented, state-wise, in Statement 4.1(a)(i)C. The analysis has been confined to major states as only a few of the minor states/union territories reported daily earnings for child workers engaged in agricultural operations. The highest daily earnings during 2009-10 were reported in Ploughing (Rs.99.58) from Bihar, Sowing (Rs.130.00) from Punjab, Transplanting (Rs.107.54) from West Bengal, Weeding (Rs.93.06) from Gujarat, Harvesting (Rs.105.44) from Uttar Pradesh and in Cultivation (Rs.150.00) from Punjab. The payments were made both in cash and in kind. Earnings in forestry and fisheries were not reported from any state. Similarly, the earnings in plantation were reported only from Andhra Pradesh (Rs.68.58). In animal husbandry, the highest earnings of Rs.85.72 were reported from West Bengal.

(b) Scheduled Castes

The average daily earnings of child workers belonging to the Scheduled Castes Rural Labour Households are given in Statement 4.1(a) (ii)C. The earnings for this category were reported from few states during 2009-10. The earnings for ploughing were reported only from Andhra Pradesh (Rs.70.00), Bihar (Rs.80.00) and West Bengal (Rs.55.00). In Sowing, earnings were reported only from Karnataka (Rs.40.00), Punjab (Rs.130.00) and West Bengal (Rs.85.00). In Transplanting, the earnings of child workers were reported only from Andhra Pradesh (Rs.57.70), Odisha (Rs.50.00) and West Bengal (Rs.85.00). Similarly, the earnings in weeding operation were Rs.80.00 in Gujarat, Rs.40.00 in Tamil Nadu and Rs.82.00 in West Bengal. In harvesting, the earnings varied from Rs.56.35 in Karnataka to Rs.150.00 in Andhra Pradesh. The daily earnings in cultivation operation ranged between Rs.40.92 in West Bengal and Rs.150.00 in Punjab. Earnings in forestry, plantation and fisheries operations were not reported from any state. In animal husbandry, the earnings of child workers were reported only from Punjab (Rs.65.00) and Rajasthan (Rs.57.14).

(c) Scheduled Tribes

The average daily earnings of child workers belonging to the Scheduled Tribes Rural Labour Households engaged in various agricultural operations are presented in Statement 4.1(a) (iii)C. The average daily earnings of Scheduled Tribes Child workers were reported for few states in different agricultural operations. In all the selected agricultural occupations, it was highest for cultivation (Rs.85.00) in the state of Karnataka and lowest for animal husbandry (Rs.28.57) in the state of Odisha among all the major states during 2009-10.

(d) Other Backward Classes

Average daily earnings of child workers of Other Backward Classes Households is given in statement 4.1 (a) (iv)C. In ploughing operation, amongst the major states during daily earnings were reported only from two states viz. Bihar (Rs.100.00) and Madhya Pradesh (Rs.50.00). Sowing recorded earnings in Bihar (Rs.100.00) and Uttar Pradesh

(Rs.80.00). In transplanting, daily earnings were reported only from Bihar (Rs.60.00) and Odisha (Rs.30.00). Weeding operation secured the highest earnings of Rs.105.00 in Gujarat and the lowest of Rs.37.18 in Maharashtra. Daily earnings in harvesting were only reported from Bihar (Rs.42.86). Earnings in cultivation were Rs.33.06 in Andhra Pradesh and Rs.43.56 in Madhya Pradesh.

4. EARNINGS OF MEN, WOMEN AND CHILD WORKERS OF AGRICULTURAL LABOUR HOUSEHOLDS

The average daily earnings of Agricultural Labour Household workers in respect of Men, Women and Child workers belonging to all the four categories engaged in different agricultural occupation are presented in Statements 4.1(b) (i) M to 4.1(b) (iv) C. As Agricultural Labour Households constitutes majority of the rural labour households, the earnings were almost on similar patterns to the one observed in case of Rural Labour Households. Hence, detailed analysis has not been carried out for agricultural labour households separately.

5. EARNINGS OF WORKERS OF RURAL LABOUR HOUSEHOLDS AND AGRICULTURAL LABOUR HOUSEHOLDS IN AGRICULTURAL OPERATIONS

Earnings of workers of all classes of Rural Labour Households and Agricultural Labour Households engaged in different agricultural operations during 2009-10 at all-India level have been presented in the Table 4.4 below.

Table 4.4
Average daily earnings of workers of Rural Labour Households and Agricultural Labour Households in different agricultural operations during the year 2009-10
(All Classes) All-India

(In Rupees)

11. Other (Agriculture)						
Total	-	-	-	-	-	-
Cash	-	-	-	-	-	-
Kind	-	-	-	-	-	-

It may be seen from the above Table that the average daily earnings of the Rural Labour Households were almost similar to those of the Agricultural Labour Households in most of the operations. The narrow difference in average daily earnings in agricultural operations was mainly due to the fact that Agricultural Labour Households were a sub-set of Rural Labour Households which constitute about 2/3 of the Rural Labour Households. Only in forestry and fisheries operation, the daily earnings of male workers of Agricultural Labour Households were significantly higher than those of the Rural Labour Households. Similarly, in forestry operations, women in Agricultural Labour Households earned better than those in Rural Labour Households. In case of child workers, not much variation was found in the daily average earnings of both the households except in animal husbandry where the child workers of ALHs had more earnings than their counterparts in RLHs.

6. Level of Real Earnings

Information on money earnings of men belonging to Agricultural Labour Households engaged in agricultural occupations along with the daily real earnings for the period 2004-05 and 2009-10 in respect of 20 States is given in Statement 4.2. The real earnings have been derived by deflating the money earnings with the consumer price index numbers for agricultural labourers. The real earnings during 2009-10 have increased in all the states over the previous survey period except in the state of Assam and Himachal Pradesh. In real terms, the increase in earnings was the highest in the state of Andhra Pradesh (45%) followed by Jammu & Kashmir (32%) and the lowest in Himachal Pradesh (-7%). However, in terms of money earnings, the highest increase was 125% in Andhra Pradesh and the lowest was 30% in Himachal Pradesh.

7. Minimum Wages in Agriculture

The Minimum Wages Act, 1948 is the only statutory legislation which ensures minimum wages to workers in agriculture, thus, protecting against exploitation by the employers. The State-wise average daily earnings of Agricultural Labour Households and Rural Labour Households during 2009-10 in agricultural operations along with the prevailing minimum wages under the Minimum Wages Act, 1948 as fixed by the respective State Governments are given in Statement 4.3. The average daily earnings of the Agricultural Labour Households and the Rural Labour Households were almost similar as agricultural labour households constituted about two-third of the rural labour households. It has been observed that in many major states such as Assam, Bihar, Chhattisgarh, Gujarat, Haryana, Maharashtra and West Bengal, the average daily earnings of men were even less than the minimum wages fixed by the respective State Governments. The position in respect of minor states/union territories was much better. In all such states/union territories the average daily earnings were more than the minimum wages fixed under the Minimum Wages Act, 1948 except Sikkim and Daman & Diu.

8. Wages in Agriculture vis-a-vis Wages in Factories, Coal Mines and Plantations

The average daily earnings of men engaged in agricultural operations and those who were employed in factories, mines & plantations are given in Statement 4.4. Though these are not strictly comparable with each other for various reasons but a rough estimate can be made out of these details. It has been observed that the daily earnings in agriculture were generally comparable with those in plantations but were much lower than those prevailing in factories and coal mines.
